

"dennoban™"

A REVOLUTIONARY APPROACH:
A SECURE, ALL-IN-ONE PC
ON AN OPTICAL DISC

Contactless
Autonomous
Authentication

..... AN INDISPENSABLE TECHNOLOGY FOR dennoban:

A REWRITABLE VOLUME ON A BOOTABLE OPTICAL DISC

HAS ANYBODY EVER MADE IT?

- PC/AT SPEC ALLOWS **ONLY ONE PARTITION**
- FAST BOOT-UP REQUIRES **READ ONLY ISO9660**

IT'S DONE ! THANKS TO SOFTWARE ARCHITECTS, INC. (PAT. P)

- ENCAPSULATE A VFS INSIDE AN ISO9660 IMAGE
- BURN IT ON A REWRITABLE OPTICAL DISC
- BOOT UP NORMALLY
- THEN, MOUNT THE VFS AS A **REWRITABLE VOLUME**

ADVANTAGE OF ON-DISC MPU

(IntelligentDisc, Inc. has 34 registered patents worldwide)

- Increased Protection against Illegal Duplication
- More Secure Authentication with Autonomous MPU Action
- More Security Against Computer Virus with Isolated MPU Bus
- More Security Against BORE^(*1) with the Programmability of MPU

(*1) Break Once Run Everywhere

dennoban IS GOOD FOR:

- **Very High Security Optical Storage**
(Company, Government, Military, Medical, etc.)
- **Digital Rights Management**
(Movie, Music, Game, Program, etc.)
- **In the Office**
 - Thin Client "Optical Disc Terminal" with Distributed Storage
 - Data Back up of existing PCs
- **Optical Disc PC with e-Money Functionality**
 - Large Contents e-Commerce

TEAC dennoban DRIVE

THANKS TO TEAC CORP., **USB dennoban DRIVE**
IS NOW READY FOR MASS-PRODUCTION.
IT CONTAINS dennoban COMMUNICATION AND ALL
NORMAL SUPER-MULTI DRIVE FUNCTIONALITIES.

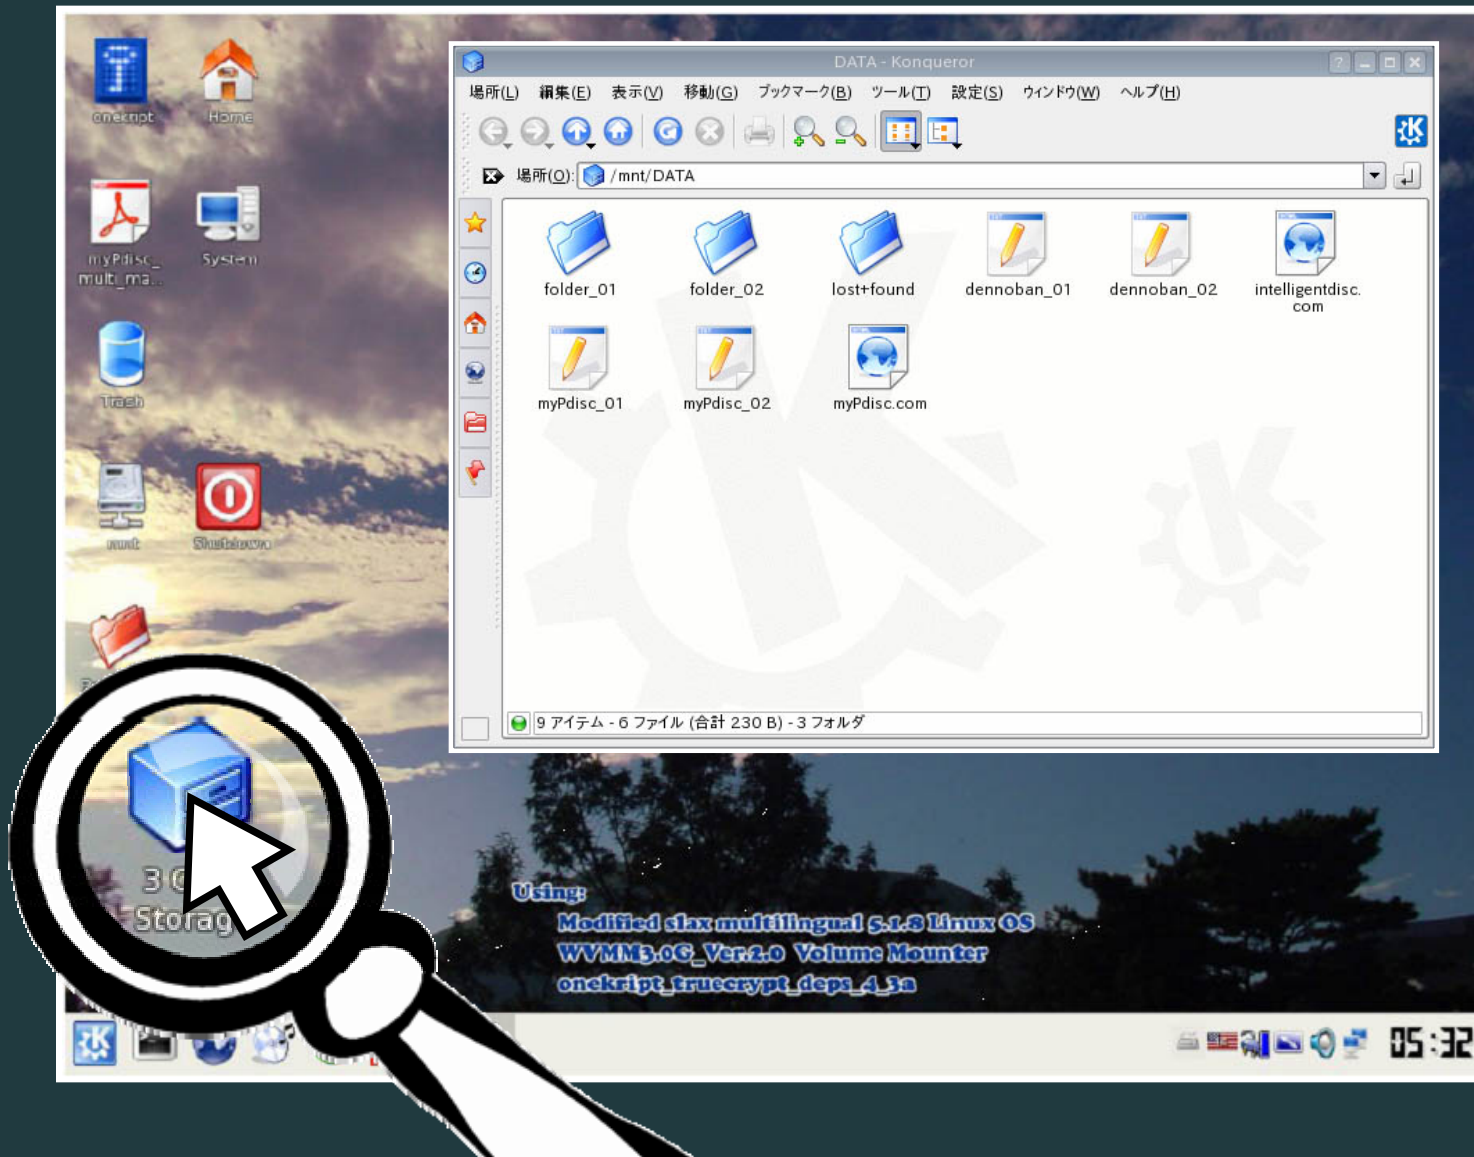

dennoban WITHOUT MPU = "myPdisc"

..... a General Purpose Optical Disc PC
for Hobbyists and General Users.

Following ISO images with **3GB STORAGE** are
now available from <http://www.mypdisc.com>
Just burning on a DVD-RAM makes a myPdisc.

- **SLAX-5.1.8.1** (English)
- **SLAX-5.1.8** (Multilingual)
- **SLAX-ja-5.1.8.1-3** (Japanese)
- **KNOPPIX 5.1.1** (Japanese)

DESKTOP EXAMPLE (SLAX multilingual)

myPdisc PRODUCT FEATURES:

Linux OS
3GB Storage
OpenOffice 2.0
Thunderbird
Konqueror
K3B
KDE3.5.4
J2RE
TrueCrypt 4.3a
Skype

.....
.....

ROADMAP OF dennoban / myPdisc:
